Jakarta, Indonesia

I am a fresh graduate in Information Systems from the Faculty of Computer Science, Brawijaya University. I have a strong interest in IT Product Development, Cloud Engineering, and DevOps. With a creative and analytical mindset, I am eager to continue learning and growing professionally. My experiences leading several IT projects have also strengthened my leadership, collaboration, and problem-solving skills.

Work Experiences

Deloitte - Central Jakarta, Indonesia Apr 2026 - Present
Technology & Transformation

- Contributed to the design of a high-level architecture for a CRM system, translating business requirements into scalable technical solutions aligned with enterprise standards.
- Assisted in the development of Functional Technical Documents (FTD), bridging the gap between functional needs and technical implementation for cross-functional teams.
- Supported various ad-hoc project tasks, demonstrating adaptability and responsiveness to dynamic consulting project demands.

Telkom Indonesia - Central Jakarta, Indonesia Dec 2025 - Present
Developer Intern

- Developed an internal Risk Register Dashboard using React and Express.js with PostgreSQL as the database to improve efficiency in risk management and reporting processes.
- Supported internal web dashboard development and prepared documentation to ensure alignment between business requirements and system implementation.
- Assisted in dashboard monitoring and data integration from Oracle, Denodo, APIs, and Excel to ensure data accuracy.

8am Business - Singapore Nov 2025 - Jan 2026
AI Product Innovation Engineer

- Engineered AI workflows with n8n, optimizing APIs and LLM processing, reducing manual effort by up to 60%.
- Built AI interfaces using Lovable to streamline prompt flows and improve user adoption.
- Managed Supabase for authentication and AI data storage, improving retrieval speed and accuracy.

Telkomsel - South Jakarta, Indonesia Sep 2024 - Mar 2025
Cloud Platform Engineering Intern

- Developed automation using AWS Lambda to manage unattached Elastic Block Store (EBS) Volumes and manual Snapshots, reducing monthly cloud cost by 0,2%.
- Designed and implemented a monitoring system for Kubernetes clusters.
- Helped research and document the migration of Kubernetes autoscaling from Cluster Autoscaler to Karpenter.

Education

Universitas Brawijaya - Malang, East Java Aug 2021 - Jul 2025
Bachelor of Information System, 3.76/4.00

- Graduated Cum Laude with a Bachelor's degree, completing 154 credits in 8 semesters with excellent academic standing.
- Contribute to multiple committee activities, particularly in Community Service, and enthusiastically compete in IT-related competitions.

Organizational Experience

MUKERNAS FONRASSOSMAS BEM se-Indonesia IX 2023 - Malang, East Java Jan 2023 - Jun 2023
Head of Coordinator of Publication, Design, and Documentation

- Create and develop design ideas that will be communicated with several other divisions regarding the needs during the event.
- Constantly update with social media trends and create trend-relevant content.
